

CAET Mentorship Program Mentor/Mentee Registration

The CAET Mentorship Program has been developed to promote and facilitate a network for ongoing professional growth of its members through various levels of the organization. There are three areas of opportunity which provide a partnered learning experience between a mentor and mentee. The purpose of this form is to collect information about participants. Information provided when registering is confidential and will only be used by the mentoring program coordinator to form mentoring partnership. Please complete the registration form identifying your preferred role and area(s) of interest/expertise to either share with, or learn from your ET colleagues.

Date: _____
